PROJECT EXPERIENCE

Golf Tournament Organizer — Social Networking Website
- A website created with the intent of informing and connecting people with local golf tournaments, as well as giving a platform for tournament organizers to post their own listings.
- I led most of the projects development as well as designed and developed most of the front end work.
- Utilizes Java, Spring Boot, Thymeleaf, and MySQL.
- Uses Bootstrap to automatically adjust website elements to look good on all devices

JavaScript Side-Scroller — In-Browser JavaScript Game
- A side-scroller browser game created solely using Javascript and HTML
- Uses simplistic, yet complex code to implement physics, animations, and collision.
- Utilizes HTML Canvas to draw graphics via Javascript.

WORK EXPERIENCE

3d Printing Technician for Dental, Michael F. Grasso, DDS, Chesterfield MO, July 2018 – Present
- Uses CAD systems for the fabrication of quality prosthetic dental appliances.
- Development of cutting edge dental appliances under the guidance and cooperation of Dr. Grasso.

Wedding Caterer, Frenchtown Catering, St. Charles MO, May 2014 – Present
- Coordinate various events (with up to 350 guests) under time constrained pressure so that the facility and equipment are set up and the event can run smoothly.
- Handle customers' concerns or complaints and implement solutions.
- Prepared and cooked food as needed for different events.
